WORK EXPERIENCE

NCR Voyix **Jun 2024 – Oct 2026**
Software Engineer II *Atlanta, GA*
Ruby / Sinatra, PostgreSQL, Docker, Jenkins, REST API, CI/CD, Java 8+, Confluence, JIRA, Kubernetes, Copilot, Claude Code

- Designed and implemented an integration with an external coupon provider (AppCard Super J) for shopping cart evaluation using Ruby and PostgreSQL
- Diagnosed and resolved 8+ recurring production defects in NCR's FedRAMP-compliant transaction-log pipeline for DeCA military commissary stores, including a duplicate-promotion bug overcharging customers $160/order and a silent XML validation failure that dropped audit records without raising an error
- Resolved 10 client support tickets per month, including high-priority issues with third-party integrations (Uber, Mailgun, Fiserv)
- Built an AI agent orchestrator that guides engineers from a JIRA ticket through requirements, design, implementation, and testing; adopted team-wide, increasing per-engineer ticket throughput by 3 per sprint

Georgia Tech Research Institute **Apr 2023 – May 2024**
Software Engineer *Atlanta, GA*
Java 8+, Spring Boot, AngularJS, Angular 3, PostgreSQL, Docker, Liquibase, Keycloak, Node, Python, Java JSP

- Implemented access control model for cloud API service within Keycloak using LDAP and Java.
- Implemented bulk document destroy feature using Angular, Java, and PostgreSQL.
- Researched development of middleware for cloud API service in Flask, Spring, and Express.
- Contributed to feature development, bug fixes, and testing for document library application.

Automatic Data Processing **Aug 2022 – Mar 2023**
Associate Application Developer *Alpharetta, GA*
Java 8+, Spring Boot, AWS S3, RDS, Drools, PostgreSQL, Confluence, JIRA

- Created compliance as a service proof of concept using Java and AWS.
- Configured state specific requirements for compliance service together with product owner and relevant business units.
- Created documentation for requirements, performance, and testing for proof of concept compliance service.

SKILLS

- **Languages:** Java, Python, C / C++, SQL (PostgreSQL), Javascript, Typescript, HTML / CSS
- **Frameworks:** React, AngularJS, Node.js, Flask, Junit, JQuery
- **Developer Tools:** Git, Docker, Amazon Web Services, VSCode, PyCharm, IntelliJ, Eclipse
- **Certification:** AWS Associate Solutions Architect.

EDUCATION

Georgia Institute of Technology **Aug 2025**
Masters of Science in Computer Science. *Atlanta, GA*

University of Georgia **May 2022**
Bachelors of Science in Computer Science. *Athens, GA*
